INDEX TO VOLUMES XI-XX (1950-1959)

Nelson P. Springer

Explanation: Authors and subjects are listed alphabetically in boldface print, followed by the title of the pertinent article or feature. The title of the article is followed by the name of the author, volume number, issue number, page, and date of issue in that order, except that the author's name is not repeated if it happens to be the index entry. No authorship has been ascribed to the feature "News and notes," so that personal names followed by this title are subject entries and not author entries. Book reviews have been grouped under the entry "Books reviewed." The word "Reviews" after an author's name locates book reviews by this person. Abbreviations used: Ja—January; Ap—April; Jl—July; O—October.
